- Our Mission -

Making a Difference in our Community by encouraging people to donate furniture they no longer need!

- About us -

Take it Away was created on the idea that "One man's trash is another man's treasure."

-English Proverb

This is not a charitable website; however, people are able to get rid of furniture they no longer have use for while helping someone else in need.

Take it Away makes it easy and convenient for both the donor and the recipient because there are no fees involved!
